

THE TRIPLE DOOR AUDIO/VISUAL SPECIFICATIONS

Front of House Console: 1 x PM1D Digital Mixing System including:

- DS1D 96 channel digital mix engine
- CS1D digital mixing control surface
- 48 microphone inputs
- 32 line level outputs
- 8 line level inputs (at mix location)
- 48x48 AES/EBU digital outputs/inputs to recording system
- 8x8 AES/EBU digital outputs/inputs (at mix location)

The console has onboard 8 effects processors and 24 graphic equalizers as well as a 4-band parametric equalizer, separate sweepable high-pass filter, compressor and noise-gate on every input and a 6-band parametric equalizer on every output. It also has 48 mix busses (auxiliary sends) and 24 matrix busses.

Front of House Amplifiers:

- Crown CTs amplifiers with Programmable Input Processors (IQ-PIP2-USP3)
- Amplifiers are computer controlled via Crown TCP/IQ software and provide all necessary processing of audio signals in the PIP cards.

Front of House Speakers:

- 8 x JBL Vertec 4888 Line-Array Full-Range Loudspeakers
- 4 x JBL CS4464 Custom Shop Cinema Series Dual 18" Sub-woofers
- 7 x JBL UCF2521 Custom Shop Front-Fill Full-Range Loudspeakers (stage lip)
- 2 x JBL Control25av Front-Fill Full-Range Loudspeakers (proscenium wall)
- 4 x JBL CMS28 Custom Shop Full-Range Loudspeakers (delayed fills)

Monitor System:

- 9 x JBL TTM129 Bi-Amplified Loudspeakers with a 12" woofer and 2" driver
- 1 x JBL Self-Powered 18" Subwoofer
- 9 x Crown CTs 2000 Amplifiers with Programmable Input Processors (IQ-PIP2-USP3)

Amplifiers are computer controlled via Crown TCP/IQ software and provide all necessary processing of audio signals in the PIP cards.

Recording System:

- 2 x Tascam MX-2424 Hard Disk Recorders w/18 & 36gb removable hard-drives
- 1 x Shure VP88 Stereo Room Mic
- 1 x Tascam CDRW2000 CD Recorder/Burner

THE TRIPLE DOOR AUDIO/VISUAL SPECIFICATIONS CONT'D

Microphones:

- 1 x Electro Voice ND868 Large Diaphragm Dynamic Instrument Mic
- 1 x Sennheiser 602 Large Diaphragm Dynamic Instrument Mic
- 6 x Sennheiser 604 Drum Mic
- 2 x Sennheiser 609 Dynamic Instrument Mic
- 12 x Sennheiser 835 Dynamic Vocal Mic
- 2 x Sennheiser 835S Dynamic Vocal Mic, Switched
- 2 x Sennheiser E500-35 Wireless Vocal Mic
- 1 x Sennheiser E500 Body pack with MKE-2 Lavalier Mic
- 1 x Shure VP88 Stereo Condenser Mic
- 4 x Shure SM57 Dynamic Instrument Mic
- 2 x Shure Beta91 Pressure Zone Mic
- 6 x Audio Technica 3031 Small Condenser Mic
- 2 x Audio Technica 3035 Large Diaphragm Condenser Mic
- 2 x Shertler acoustic piano pick-ups
- 4 x Countryman Type 85 Active DI boxes
- 3 Whirlwind IMP2 DI boxes

Visual System:

- 1 x Proxima DP9295 4100 lumen LCD Projector (4:3 format)
- 1 x 16' – 12' Front Projection Screen (installed center stage just upstage of curtain)
- 1 x 42" Plasma Screen (installed in lounge)
- 1 x 4 input 2 output VGA Matrix Switcher
- 1 x Remote VGA input location on Stage to VGA Matrix
- 1 x Sylvania DVD/VCR
- 1 x Connection to Satellite TV system (in lounge)

Sound System Computer also connected to the VGA Matrix.

Suite Sound Systems:

Individual JBL SMS1 Sound Zone Music System installed in each of the four suites with individual volume control and globally selectable input from either stage or auxiliary input.

Lounge Sound System:

- 26 x JBL Control 26 Ceiling Speakers
- 6 x JBL Control 19 Ceiling Sub-woofers
- 7 x JBL Control 25av Loudspeakers
- 1 x Sony 400 disc CD Changer
- 1 x Go-Video DVD/VCR
- 1 x Rane RM8 Digital Zone Controller

THE TRIPLE DOOR AUDIO/VISUAL SPECIFICATIONS CONT'D

Musicquarium Lounge Performance Area (LPA):

- 2 x JBL Control29av Speakers (for LPA monitors)
- 1 x Behringer 4 mic/2 line input mixer
- 1 x Stereo Input to Rane Zone Controller
- 1 x Mono input for monitor speakers

VIDEO PROJECTION SPECS

PROJECTOR:

Proxima DP9295 4000 lumens, 1024 x 768 resolution, 4 x 3 aspect ratio

MAIN PRESENTATION SCREEN: 16' wide x 12' high (4 x 3 aspect ratio), motorized. This screen comes down all the way to the floor, just behind the curtain. This is the screen we use for video or PowerPoint presentations.

There is not enough room for a band to play in front of this screen. For that purpose, a white cyclorama can be hung as a backdrop. There is a \$75 fee.

INPUT SOURCES: At the soundbooth (Front of House), we can show your PowerPoint presentation from our PC (just bring your slides on a CD or USB drive). We have a wireless remote for advancing slides from the stage. There are 2 additional VGA inputs for client computers, a DVD player, and a DISH Network satellite receiver. We can also connect any S-Video, composite, or component video source.

On stage, we have 1 VGA connection for a laptop.

In the Musicquarium Lounge, there is a 42' plasma screen. It can be fed from the soundbooth or a DVD player at the Maitre D' desk.
